**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Monday, November 30, 2020, DHHS announced 514 new positive test results for COVID-19, for a daily PCR test positivity rate of 5.5%. Today's results include 287 people who tested positive by PCR test and 227 who tested positive by antigen test. There are now 5,145 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today, 265 new positive test results are from Saturday, 11/27 and 249 new positive test results are from Sunday, 11/28. Test results received Sunday are still being processed and the total number of new positives for that day is not yet complete. Updated case counts for prior days will be reflected on the [COVID-19 interactive dashboard](#).

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are fifty individuals under the age of 18 and the rest are adults with 51% being female and 49% being male.
